| Project Title | BE ECO+ : Find solutions to decrease our carbon footprint! |
| Structure interested to find a partner | Lycée Léon Blum Villefranche de Lauragais (near Toulouse, Region Occitanie, France) |
| Description of the partner | <ul style="list-style-type: none"> - Our high school has an E3D label (level 3) (Establishment in Global Approach to Sustainable Development). We are hence engaged to develop the sustainable development goals: <ul style="list-style-type: none"> • We planted a hedge and an orchard with insect houses. • We have solar thermal panels and photovoltaic panels, and we use wood heating. Finally we collect rainwater for toilets, and there is a green roof. • Our canteen develops local food and vegetarian food. • We receive primary and middle school pupils to visit our school and initiate the scientific English glossary in relation to sustainability. - 24 students of European Section biology/English in the class (15 and 16 years old) |
| Partners sought | <p>A high school located in Europe to set up an exchange:</p> <ul style="list-style-type: none"> - Hosting in host families - Visit the host school - Discovery activities linked to the sustainable development project - Cultural activities in the region |
| Outline of the project | <p>Work together to find common solutions to have an impact on our carbon footprint:</p> <ul style="list-style-type: none"> - Discovery activities linked to the sustainable development project inside our school and around the country - Cultural activities in the region |
| Activities | <ul style="list-style-type: none"> - <u>Distance work (videoconference) : meeting between pupils of the two high schools around the common project. Prepare the trip.</u> - <u>Trip and exchange in the partner's country:</u> <ul style="list-style-type: none"> • Hosting in host families • Visit the host school (what we have put in our high school in connection with our project: planting of a hedge, an orchard, planters with aromatic plants, insect house, wood heating, solar panels, recovery of rainwaters in the toilets,...) • Discovery activities linked to the sustainable development project around the city (for example: visit companies partners) • Cultural activities in the region (National History museum in Toulouse, City space in Toulouse,...) |
